Dear Chair Marshall, and Councilors Belkot, Fuentes, Little, and Yung,

I am writing to strongly urge you to adopt greenhouse gas (GHG) emissions reduction targets aligned with the City of Vancouver's reduction targets and to draft a supplemental EIS that creates a viable alternative through appropriate up-zoning that limits urban growth boundary (UGB) expansion and protects agricultural resource lands in the 2025 Clark County Comprehensive Plan Update (Comp Plan Update).

I **do not** want expansion of urban growth areas and urban sprawl. As a resident of Ridgefield, I believe it is important to protect our agricultural areas. I enjoy the quality of life here where open space and farms are nearby. As a retiree, I think we need to think of the future we leave for our children and grandchildren.

Let's find a way to provide housing and jobs without destroying farmland!

Sincerely,
Debra Rosenquist
Ridgefield
