Subject
2025 County Comprehensive Plan Update

Date of Hearing
Thu, 10/01/2026

Comment
Councilmember Yung and Clark County Council,

I write from District 1 in support of the coalition proposed amendments to the comprehensive plan:

Align greenhouse gas (GHG) emissions reduction targets with the City of Vancouver's reduction targets. We need more aggressive measures to mitigate the climate effects that will fall on Clark County. The better we mitigate, the less direct (such as wildfire) and indirect (global democratic backslide under pressure) we experience.

No expansion of UGBs or de-designation of agricultural resource lands. I love my city, and I'm sure our rural neighbors love their communities and ways of life just as much. Please help us preserve both against additional urban sprawl and reduction of local food resources.

Draft a supplemental EIS with appropriate up-zoning to accommodate housing and employment targets. Reinforcing the urban growth boundary point above, to preserve rural systems we need to make our urban areas more dense and more livable. This should be a good first step in that direction.

Thank you very much for your time and consideration,

Alex Haupt
