Comprehensive plan comment

Comments

As the county continues to grow I feel that it's important to make sure we grow as a livable place that prioritizes low carbon lifestyles with things like dense housing, ample green space, and safe dedicated networks for bikes and pedestrians. As climate change continues on, it is important that Clark county grows in a healthy way to accommodate new residents while bringing improvements to those already living here. Car centric building needs to stop. We have more than enough sprawl
