Light Rail and more Rapid Transit Options

Comments

With the replacement I-5 bridge likely including a rail element, it is time for Clark County to reconsider rail as a transit option in our area. Either way, rapid transit throughout the UGA needs to increase. I would love to use transit to get to downtown Vancouver more often, but a bus trip from the WinCo at 117 Ave & 119th St to downtown Vancouver currently takes 1 hour and 40 min, where it is 20 minutes by car. Increasing C-Tran's point to point transit could also help to increase transit.
