RE: Age-In-Place Housing Initiative

Greetings Sir or Madam:

For the Comprehensive Plan Update, I propose that there be provision and leadership to include
*Age-In-Place home design - permitting- building to be included in the plan.

There is a need for this kind of Age-In-Place accessible home, especially among the elderly and the mobility-impaired population. With understanding and leadership from the Comprehensive Plan, this could launch a valuable component in Clark County's housing options.

What is an Age-In-Place home? In broad terms, it can be summarized as; ***A home with the resources and features allowing residents to safely age in their home with minimum restrictions, and in which the residents can confidently and safely welcome family and friends, regardless of disability.***

Warm regards,

Doug Hamilton
