Message Subject

Comprehensive Plan

Comments

I think that it is very important that when you make a comprehensive plan that you follow it. When people are living in an area, they can base their future home purchases on the plan that is available at the county. When

changes are made to the plan that benefit individual business owners over an entire community, that is not only inappropriate, but bad governing. What is the point of a plan if an entire neighborhood can be ruined by putting a concrete batch plant feet away from existing homes?
