---

I will replace what is in the record with this email. Keep in mind, the Council will not be having hearings on the Comp Plan for quite some time. Your name has been added to our database, so you will receive all future notifications on public hearings and other items related to the Comp Plan. Thanks again for your comments Janet

Good Morning Sonja,

I have submitted the comments again because I changed one word in the statement. Thank you for adding my comments to the long list of comments. I pray the council will read them and understand we all have a vested interest in their decisions.

Best regards,  
Jan Kelly

>

> Your goals as they are set forth in the GMA plan are to manage growth so that the people of clark county can live safely, in a healthy environment without undue stress from the local businesses, while protecting our environment, our natural resources and our quality of life. Doing spot zoning changes from light industrial to a railroad industrial is in direct conflict to your goals as set forth in the GMA. Please protect our established neighborhoods from companies that will pollution every aspect of our environment, our health, and our disamate property values. Keep

heavy industrial grouped with heavy industrial uses, they do not belong next to any neighborhood. Period!
