Subject
County Comprehensive Plan

Date of Hearing
Thu, 10/01/2026

Comment
I am submitting this comment to express my concern with the county comprehensive plan. There are 3 areas that need to be addressed and amended to create a better future for our community.

1. Align greenhouse gas emission reduction targets with the City of Vancouver's targets. Climate change is the definitive issue of our era and we must rise to the occasion. The current plan does not meet Washington state's target. We can remedy this by adopting the Vancouver's targets across Clark County.

2. Do not expand the urban growth boundary.. We must resist urban sprawl and all of the many negative consequences that it brings such as increased infrastructure costs and car dependence.

3. Draft a supplemental environmental impact study with up-zoning to accommodate housing and employment targets.
