Tue, 03/21/2023

Comment

With Comp plan updates building Codes need revision as well to keep up with changes in population density and changes in light Technology to address high powered LED lights. Need to have codes to shield outdoor lights and point them downwards as new LED lights were not available 20 years ago. New Comp Plan is planning for population growth and building in rural areas. Kitsap County, Spokane County, Island County and many other jurisdictions have provisions for outdoor lights to support WASHINGTONS DARK SKIES and encourage respect for neighbors as new homes and businesses move into what primarily has been a logging and agricultural Clark County we need to similar efforts as other jurisdictions have been for many years.
