There is no reason to expand the UGAs. There is no supporting analysis to expand the UGS and The Vacant Buildable Lands Model (2023) are sufficient for projected population growth. Our farmland and agricultural land is an asset to ALL of Clark County. We must take Climate and Emissions standards into account. We do not need to pave over our prime farmland. This is such an important issue. It is the reason I have chosen to live in Clark County. Our country side, our forests, our farmlands are an asset to all of us.
