County Growth plan comment

Comments
I live in rural Ridgefield, near 502 and 10th Avenue. I'm writing to ask the Council to adopt a final Comprehensive Plan with NO urban growth area expansions and no de-designation of agricultural land.

The county's own Final Environmental Impact Statement indicates the Preferred Alternative provides more land capacity than the projected 20-year growth requires, and the Department of Commerce has questioned the analysis supporting expansions outside Vancouver. Expanding the boundary around my neighborhood is therefore unnecessary. It would put pressure on long-time residents like me, who live on and care for this land, through rising taxes, utility costs, and surrounding development.

In addition, expanding the UGA ignores the desire of residents to have rural lands and allows developers to continue pave over our county, ruining its character, creating more traffic and pollution - all so developers can make a profit while residents pay the price.

I ask the Council to keep the existing boundaries and to direct growth to areas already inside the UGAs.
