Good day, Roxanne,

Thank you very much for submitting comments related to the 2025 Comprehensive Plan update.

These will be added to the Comprehensive Plan Index of Record. I am forwarding to Rebecca Messinger from the Council's Office for awareness and to share with the Council.

Best,

Jeff Delapena

Comments
the Comp Plan Update the Council plans to adopt would destroy hundreds of acres of farmland and increase urban sprawl, against popular public sentiment. Additionally, the legally required Greenhouse Gas Emissions Reduction Targets (GHG targets) in the Draft Climate Element are currently insufficient in meeting the statewide 2050 goal and would allow no additional time to adapt further if interim goals are missed.
I am in agreement with the Coalition of 16 local organizations to urge you to:
1. Align greenhouse gas (GHG) emissions reduction targets with the City of Vancouver's reduction targets.
2. No expansion of UGBs or de-designation of agricultural resource lands.
3. Draft a supplemental EIS with appropriate up-zoning to accommodate housing and employment targets.
Let's keep the Clark County we know and love for future genrations
