Comment

I urge Clark County Councilors to select the MIDDLE population projection provided by WA state OFM. This is the responsible choice to make for the financial well-being of our County. Clark County does not have the current ability to maintain its infrastructure to serve its residents. As a 32 year resident of Clark County, I am very aware of prior decisions by Clark County Commissioners / Councilors to select the higher population projection and note that Clark County's population still has not reached the 2002, 2007, 2012, or 2017 selected high population projections. Your decision will send a strong message to Clark County residents that you want

to seen as responsible caretakers of the county and serve their well-being. Again, choose wisely and choose the MIDDLE population projection.
