Dear councilors,

As a long time resident of Clark County, I enjoy our quality of life, and appreciate the work the county and cities are doing to expand housing options beyond single family homes and apartment buildings within the cities and urban growth areas.

To preserve our quality of life we need to maintain sensible tax rates, more than adequate services, open space, forest land and agriculture. To that end, it is important to select the most likely Population Projection and not allow excessive growth of the UGAs. Rather, save that land for our future.

I urge you to select the medium population forecast. Please do not let pressure from the development interests sway your judgement on this key decision.

Thank you,

Jackie Lane
