I have attempted, without any success, to explain the Battle Ground proposed changes and stated mission do not align. There are two roads that cannot meet the goals of the Westside expansion. Ne 228th st and NE 226th st are both homes on one acre lots governed by CCR's. There is no way we can produce jobs or housing in the next 20 years. A petition was turned in, signed by nearly all residents on these two roads, supporting an adjustment to exclude us. Please adjust the boundary. Sam Crumpet said he did not want an uneven line on the map, but it is already uneven by leaving out the property directly behind us. Please check the BG map northern boundary at NE 72nd to confirm this. Both Ron Barca and Troy McCoy have tried to help and are familiar with the situation. How can a map design be more important than humans and property owners? It is not too late to make this little change. Thanks for your consideration and help.
