Subject

Population Projection for Comprehensive Plan

Date of Hearing

Tue, 04/18/2023

Comment

The Comprehensive Plan should be based as closely as possible on known facts in order to realistically address the concerns of the Plan. The middle population projections of the OFM have historically proved to be very accurate for each of the past three planning cycles. There is no reason to believe their middle projection for the coming cycle will not be equally close to actual future population growth.

I urge the Council to adopt OFM's middle population projection as the basis for the 2025 Comprehensive Plan Update.

Thank you.
