Good afternoon,

As a member organization of NW Partners for a Stronger Community, I am providing the attached public comment to be entered into the record on the matter of the population forecast for the 2025 Comprehensive Plan Update.

NW Partners for a Stronger Community is a 501(c) 4 non-profit, project-based organization focused on issues that impact communities in the Pacific Northwest. We prioritize issues that have the greatest long-term effect on the livability and quality of life for this generation and those to come. Our group has identified the comprehensive plan update as a key piece of policy to ensure livability and quality of life for current and future residents.

The population forecast is critical to the process because it is a major building block of the Comp Plan. We believe that the annual growth rate should be between the middle and high numbers projected by OFM. Our letter supports this assertion.

We look forward to collaborating with Clark County Council and staff throughout the coming months and years to ensure an optimal outcome for our community.

Best,
