Good day, Kaylee,

Thank you very much for submitting these comments related to the 2025 Comprehensive Plan update.

Confirming this has been received and will be added to the Comprehensive Plan Index of Record. This will also be forwarded to be shared with the council prior to tonight's Hearing.

Message Subject
Opposing the Comprehensive Plan Update

Comments
I am a very grateful member of the Clark County Community, and I intend to protect its people and ecosystems in any way I can. I strongly oppose the de-designation of farmlands to be used for unnecessary and irresponsibly proposed UGA expansions. I am a young, excited voter, passionate about protecting our community's access to locally grown food, and protecting our farmers' livelihoods from being paved over. Any council member who votes in favor of putting our community's access to healthy, locally grown food in danger will lose my vote. Someone as passionate as I am about this matter will also make a dedicated effort to ensure no council member, present or future, in favor of destroying our farmers' livelihoods and local food systems for profit, will get any votes from anyone else in this community either. These farmlands are more valuable to Clark County than anything the unnecessary proposed UGA expansions could ever be. All forecasted population growth can be accommodated within current UGAs. It would be illogical and heartbreaking to hand over these essential farmlands for more urban sprawl, instead of using the designated UGAs the county currently has more responsibly. Agricultural lands managed sustainably and regeneratively are currently one of the most helpful contributors to bringing global temperatures down and having a healthy planet for all who live on it. These beautiful acres in danger, are wondrous, and capable of so much if they are protected by the people who benefit

from them, and everyone in this community does. People over profit, forever and always. We live here, we pay our taxes, and we deserve to be heard and protected from people looking to make a profit off of something that is irreplaceable once destroyed. Everyone needs a farm and it's humble, hardworking farmer, three times a day. It is the most important part of any community, and our community's collective health and happiness would be in danger if the council were to de-designate more of our agricultural acreage to be landscaped lawns and mono-crop foliage typically found in UGAs. I am joining the coalition of other passionate members and business owners in this community who are opposing the Comprehensive Plan Update. I will forever protect our farmlands from corporate interests and greed.
