Hi Scott,

Thank you for your email, interest in this topic, and suggestion regarding ground source heat pumps for public facilities. The county is just getting started on its climate work and we have not started evaluating specific policies or actions yet.

Thank you again for your input and we look forward to hearing any additional ideas you might have as we get further along in this work.

Regards,  
Jenna

Thank you for the invitation to attend and I'm grateful for all that you and your team are doing to maintain a balance of growth and sustainability.

Has your team considered the use of ground source heat pumps to heat and cool public buildings. They are over 400% efficient and qualify buildings for LEED certifications.

## **COUNCIL TO HOLD WORK SESSION ON NEW CLIMATE CHANGE PLANNING LEGISLATION**

News Release from **Clark Co. WA Communications**

*Posted on FlashAlert: June 22nd, 2023 8:29 AM*

Vancouver, Wash. – Clark County Council will host a work session on new climate change legislation the morning of June 28, 2023, after the Board of Health meeting, which begins at 8:30 a.m.

With the passage of E2SHB 1181 during the 2023 Washington state legislative session, Clark County is now required to add a Climate Change Element to its Comprehensive Plan by June 30, 2025. This work will be integrated into the 2025 Comprehensive Plan Periodic Review project.

The work session is intended as an initial informational briefing for council and will include an overview of the new legislation and outline how it intersects with the rest of the 2025 Comprehensive Plan Periodic Review project.

The work session is open to the public, however there will be no public comment as part of the event.

The meeting will be held in a hybrid format. Attendees can join in person in the sixth-floor hearing room of the Public Service Center, 1300 Franklin St., or virtually via Webex.

The meeting materials can be found at <https://clark.wa.gov/community-planning/2025-update-meeting-and-event-information>.

Information on how to attend the meeting can be found on the council's meeting page at <https://clark.wa.gov/councilors/clark-county-council-meetings>. A recording of the meeting will also be posted on this webpage for viewing later.

To learn more about the 2025 update and to sign up for project updates, please visit the project website at [www.clark.wa.gov/2025update](http://www.clark.wa.gov/2025update).
