Hello Adeline,

Thank you very much for submitting these comments related to the 2025 Comprehensive Plan update.

Confirming this has been received and will be added to the Comprehensive Plan Index of Record. Forwarding to additional staff as well to be shared with the council.

Message Subject
Public Comment – Opposition to Urban Growth Area (UGA) Expansions and De-designation of Agricultural Land (2025–2045 Comprehensive Plan Update)

Comments
Dear Clark County Councilors,

As a resident of Clark county for the last ten years I am writing to express my strong opposition to any proposed expansions of the Urban Growth Areas (UGAs) and the de-designation of agricultural lands in Clark County.

Protecting our agricultural land is vital for the long-term resilience of our community. The de-designation of these lands does not just facilitate urban sprawl; it permanently decimates future opportunities for local farming and agriculture. Once productive farmland is paved over, it is lost forever there is no turning back. By sacrificing these resources to short-term development pressures, we are putting our land in jeopardy and compromising the food security of future generations.

Furthermore, current assessments demonstrate that continual development outside existing boundaries is entirely unnecessary. The county's own data and the Vacant Buildable Lands Model indicate that current urban areas already possess the capacity to accommodate projected population and employment growth over the next 20 years. Clark County contains ample undeveloped and underutilized land within its existing boundaries. Prioritizing infill development keeps growth closer to established infrastructure, saving taxpayer dollars and protecting our natural resources.

I urge the Council to select a Comprehensive Plan alternative that includes no UGA expansions and firmly protects our remaining agricultural resource lands.
Thank you for your time and for considering the long-term future of Clark County.

Sincerely,
Adeline Stone
