Subject
zoning of manufactured home parks

Date of Hearing
Thu, 10/01/2026

Comment
Those of us living in manufactured home parks are often times retired on a fixed income and struggle in today's economy to find suitable housing we can afford. If our homes are subject to being purchased for development the homeless population of Clark County will grow exponentially and this fragile population will become a much greater burden to the County. Besides retired folks, young families can often not afford a stick built house to purchase. I was one of those whose first home was manufactured. We took so much pride in our home and that really allowed us to learn responsibility at an early age, while letting us build equity for future moves.
Please zone the manufactured home parks so they are protected from the developers. There is still plenty of land in Clark County for them to build on without displacing so many young and elderly families.
Thank you.
