City councilors,

Today you have the opportunity to do right in this county and protect the future of local agriculture for this region and future generations.

It is disappointing that despite all the important information available, and the fact that it is illegal in our state, councilors have so far voted to expand the urban growth boundary because of more money for developers. What about your constituents?

Ask any of my elementary students and they will tell you to protect OUR agricultural land.

How many comments & testimonies & pleading will it take for elected officials to listen and act accordingly?

You have all the power to make choices for the good of everyone, instead of for a few who want to make money extracting and destroying our most precious resource in this county.

Thank you.
