Climate Change and Resiliency Element Public Participation Plan

**Date of Hearing**

Tue, 11/28/2023

**Comment**

Councilors, as a constituent I urge you to approve the proposed Public Participation Plan so that staff may begin working on the amendments necessary to meet the goals as put forth by the Washington Growth Management Plan.

With each subsequent delay in action, our most valuable resource of time is wasted. Climate Change remains a societal issue, which requires the cooperation and work of the masses to mitigate and avoid further disaster. It is not a matter of if we will see changes, it is a matter of when. The evidence is all around us, just this weekend The Columbian printed an article showing the mass die-offs of native trees in the Pacific Northwest. This will only get worse until action is taken.

If our county is to meet the goals set before us then a vote of approval must be made.

Thank you.
