To:
Cc: sarah.vorpahl@commerce.wa.gov <sarah.vorpahl@commerce.wa.gov>, Geiszler, Dina (COM) <dina.geiszler@commerce.wa.gov>

All,

My email inadvertently listed the survey due date as December 15, 2024. Please disregard, the due date is December 15, **2023** (also corrected below).

Thanks,

Sara Hetrick

Hi Colleagues,

I'm writing to let you know that the video recording and presentation materials for the November 14 CPRG meeting are now posted on [Commerce's CPRG website](#) under "Meetings."

Also, please don't forget to fill out the [survey on potential GHG reduction measures](#) to help support potential Phase 2 proposals and identify future funding opportunities that align. **The survey is open until December 15th, 2023.**

Thank you,

Sara Hetrick

Subject: CPRG Nov. 14th Webinar: Survey and Follow-up

Dear Colleagues,

Thank you again to those who joined us on the 14th for our meeting on Phase 2 of the Climate Pollution Reduction Program (CPRG). We are grateful for all the questions and look forward to working with you as we continue to strategize on how best to meet our State and region's climate goals. The slides from this meeting are attached, and you can expect the video recording of the webinar to be uploaded on [Commerce's CPRG website](#) on or before Friday, November 24th.

In follow-up to our conversation, we are sending the link to the survey we discussed in our meeting on the 14th. For those who were unable to attend, this survey is intended to solicit information from eligible and non-eligible entities on GHG reduction measure priorities and surface opportunities to develop state-wide coalitions for CPRG Phase 2 applications. As we discussed, CPRG cannot fund all our priority measures, so this survey will also help us to matchmake with other federal and state funding opportunities. You can access the survey at the [LINK HERE](#). **Responses are due by December 15, 2023, 5:00pm PT.**

We are also sending along the following materials that we hope you will refer to as you consider CPRG Phase 2 applications. These include:

- [EPA's Phase 2 Website](#)
- [EPA's Phase 2 Competition Notice of Funding Opportunity](#) dina.geiszler@commerce.wa.gov
- [EPA's Webinar on Evaluation and Quantification of GHG Reduction Measures](#)
- We also note that FAQs will be posted to [Commerce's CPRG website](#) soon.

Finally, we want to remind you of the key takeaways we ask you consider as you think about Phase 2 applications:

1. Coalitions and partnerships among entities will make Phase 2 applications more competitive.
2. Coordination amongst Washington eligible entities will ensure greater opportunity for success – and Commerce and PSCAA are here to help.
3. While CPRG can't fund all projects or programs we identify, it's also not the only funding source for our climate priorities. We can help identify federal and state funding that can support these important measures beyond CPRG funding.
4. Commerce and PSCAA must know which entities are submitting Phase 2 applications so that we can include the relevant GHG measure in our respective Priority Climate Action Plans (PCAP's), We aim to identify Phase 2 applications by mid-January 2024.

Thank you and please don't hesitate to reach out with questions.
