Comments

On March 29, 2007 this 31 acres of land was put into Paradise 2600, LLC. Its current classification is Farm and Agriculture.

We are very interested in having the parcel moved into the Urban Growth Boundary. We have to drive through land and developments in the City of La Center and drive past an electrical substation, a school bus facility (with which we share a property line), and a water treatment plant in order to enter or exit this property. Including it into the UGB seems only logical.

Please consider this a formal request to evaluate the change.
