The Infrastructure Investment and Jobs Act (IIJA) and the Inflation Reduction Act (IRA) represent a once-in-a-generation investment in our nation's infrastructure. With billions of dollars in funding available for broadband, energy and EV infrastructure, now is the time to act.

Are you tired of sifting through mountains of information just to miss out on crucial funding opportunities?

We hear you. Finding the right state and local grants and funding opportunities stemming from the IIJA and IRA can feel like searching for gold in a haystack. Outdated resources, confusing programs, and ever-changing deadlines make it a frustrating chore.

But what if there was a better way?

Introducing Stateside's Funding Monitoring Database, your one-stop shop for uncovering and securing funding for your business and projects.

Ditch the digging and discover the dollars!
