Planning follow-up response Clark County

**Comments**

I know there is great pressure to reduce carbon emissions. However, it is very important to continue to allow natural gas appliances for new and existing homes during this transition especially with the electrical power grid being maxed out in many areas. During this past cold winter January it is was great to have my natural gas fired fireplace, cooktop, hot water heater and gas fired furnace. Please do not ban these products. They are critical to the community.

Thanks!  
Nels Wahlman
