Comprehensive Plan update

Comments

I support combination of 2 & 3. We need enough housing in the urban areas both in cities and the unincorporated areas of Clark County. We need to increase density and mixed housing, retail, and services in urban areas to decrease the need to driving which decreases pollution. Need to work with C-tran to improve the availability of mass transit and to allow for future development of light rail. The County will need to

keep future industrial development separate from residential and agricultural areas
