Maybe adding that if you complete the survey and then it in you will be entered into a raffle to win something, a surprise. Maybe have multiple winners.

Should there be an income question?  
Are you low income  
Middle income  
etc.

Draft phase 2 question #7

What suggestions do you have for policy

(not everyone registers the word 'policy'. Maybe making it in simple terms. Use the word, 'possible' solutions that could be turned into policy solutions)

solutions missing from the above list? Please share your ideas here.

Draft phase 3 question #1

Think about the major sources of greenhouse gas air pollution in Clark County. Please share your top 3 priorities of where the climate project team should focus developing ways to reduce pollution that will benefit you and your family.

Pollution source 1  
Pollution source 2  
Pollution source 3  
Pollution source 4  
Pollution source 5  
Pollution source 6  
Pollution source 7  
Pollution source 8  
Pollution source 9  
Pollution source 10

Instead of top three, have them rank all the choices

Draft phase 3 question #2

Some places and people in the county are more impacted by bad air quality than others. Please share any suggestions you have to make sure actions the county takes to reduce pollution will benefit those who are most harmed by it already.

Not everyone is empathetic and don't think about what helps other people. Also ask, Please share any suggestions you have to make sure actions the county takes to reduce pollution will benefit you and your family.

Have the option for both questions to be asked.

Good afternoon Clark Co. Climate Project Environmental Justice Coalition,

We are writing to provide additional draft engagement questions for your review and consideration.

Review Requested: If of interest, please review possible engagement questions for future phases of the county climate project. If you have any suggested revisions, please send them to Jenna/Amy/Lauren **by EOD Friday, May 24**. You can provide revisions directly in the documents in track change and comments or send us an email with your thoughts. There are three documents as follows:

- Draft Phase 2 Questions – Focused on Resilience Goals and Policies
- Draft Phase 3 Questions – Focused on Greenhouse Gas Reduction Priorities
- Draft Phase 4 Questions – Focused on Greenhouse Gas Reduction Goals and Policies

Your time spent reviewing these materials may be included in your May invoice for county meeting preparation and attendance.

We plan to revise the questions again after receiving your suggestions.

Thanks!

Jenna
