Comments:

- We would like to see the FRDU cancelled and the railway to be recreational only past the Curtin Creek area. The PWR needs to pay for restoration of the destruction they have wrought, and fines!
- light industrial needs to mean light industrial and to be buffered from residential areas by environmental buffers, regular commercial zones, etc. to mitigate impacting neighbors.
- The greatest consideration to preserve rural spaces - no more McManstans! - forest area, riparian areas, farmland - which will also help mitigate climate impacts by restoring and providing those areas for cooling & for our disappearing wildlife.
- Please, more parks!!!! And walkable development / hikeable development! So much healthier than our 1970's - 80's car centric areas.

Thank you so much!
