Good day, Natalia,

Thank you for your comments regarding the 2025 EIS Update. I have forwarded to staff, and will add these to the Index of Record.

Hello,

I attended the meeting at the Library over by C street and would like to leave my comments.

Clark needs to start taking part of the climate commitment act. Specifically, we need to start our EV Infrastructure through Clark County.

Recycling should be encouraged when placing trash can bins at all public facilities and streets. Not just one option which is dumping.

Code Enforcement need to stay on top of many properties and conditions like trash, parking in grass. They need better control of RV and boat parking in properties and street.

Permit center need to have walk ins available every day of the week. Not by appt basis. And they should be answering phone/returning phone calls within reasonable time.

Housing needs to increase and start involving more smaller businesses to assist with projects.

Youth should be brought into council, committees to start getting the next generation involve...

Respectfully,

Natalia C Mendoza
