Good day, Linda,

Thank you for your comments regarding the 2025 Comprehensive Growth Plan. I have forwarded to staff, and will add these to the Index of Record.

Considering how complicated putting together a Comprehensive Growth Management Plan is, and considering how imperative it is to satisfy mandates from the state (climate change/emissions) as well as making sure that actual persons who live in Clark County have access to affordable housing, protection from incompetent PVJR operators (Eric Temple) and his lust for heavy industry in Clark County, protection from loss of agricultural and recreational land, I hope you choose your decisions and actions wisely.

Please listen to the many voices of the citizens of Clark County and not special interest groups like developers, and make decisions based on preserving and promoting the quality of life we need and want.

In that spirit,
Yours,
Linda Micheel
