Subject: Get rid of grass and bring in the gardens

There is so much water being wasted on lawns with grass. We can't eat grass but we water it so much so it's nice and green and then people come in and cut it all the time. We need gardens at homes and apartment buildings that feed the community. Instead of the people coming into maintenance the lawns they could be trained to take care of the gardens in the neighborhoods.

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.
