Any goal that is already in a policy with another Plan should not be in the CAG Policies.

Such as:

Restoration strategies should be developed and implemented such that ecosystem processes are sustainable in the long term. Clark County Shoreline Master Program

Where appropriate, support retrofitting, relocation, or acquisition from willing property owners of structures located in hazard-prone areas to protect structures from future damage, with repetitive and severe repetitive loss as a priority. Plan and build facilities, utilities, and infrastructure projects to avoid or withstand flooding, wildfires, landslides and associated climate impacts (e.g., changing flood plains). Combination of Clark Regional Natural Hazard Mitigation Plan and Menu of Measures

Also we need more information before the next Meeting if new items are going to discuss.
