Good Afternoon, Jenna

I have reviewed the resiliency goals and policies sheet given to us at our last meeting. Please see my input attached. The cost index is included to reinforce my concerns about some of the proposed resiliency policies, which may increase the cost of housing.

Also, I did want more clarity on the terms “public development covenants” and “climate-smart building practices”. I know this is a draft document, but I would like more information when appropriate.

Thank you for helping facilitate our meetings. I understand this is a lot of work handed to our community to complete in a short amount of time. I look forward to continuing the CAG’s important work!

Thanks Again!

Justin Wood
