Wed, 07/10/2024

Comment

This project has been deemed by the public to be very unpopular and too secretive. There has been no cost/benefit analysis proved, the public has not been adequately informed. There are many examples of this: families of school kids near FRDU, home buyers, etc), bad behavior by the RR operator have not be discussed or penalized. This project negatively affects residents: low cost housing will be lost (2 mobile home parks) precious agricultural lost, our water quality will be threatened by contamination from mining (and the financial responsibilities to clean it up), some communities can be cut off by long trains, degradation of east Battle Ground down town area, interference with residents travel to jobs (our economic bread and butter). Proponents on the council have taken contributions from the RR to top t all off. Please represent your constituents and STOP this project. It's clearly not well thought out, practical or even safe!
