Instead of growing grass on lawns, lawns could be used for growing bamboo and whoever decides to grow the bamboo could be paid so the county could harvest it and the bamboo can be used to make many different useful things that we need here locally.  
Jobs for harvesting, jobs for making things locally and paying the for their efforts in creating a sustainable local environment.

(My Signature 😊)

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.

Sending healing vibes
