Rent is a scam and it takes our energy and time to just pay to have a basic human right.

We must train our community to be builders, maintenance workers, gardeners and caregivers to the elderly and our young.

To create a society that can thrive we need to have a society that's not stressed out all the time. If we traded our rent for time spent creating systems that thrive and contributing to our communities that should be considered payment.

My rent is \$1,950 a month and that doesn't include water, sewer, garbage, electricity, food, gas, diapers etc. and the \$ is going to people already with the money. We must call out the status quo and say enough.

We must think outside of the idea that got us into this mess.
