We must create a new system that makes the old system obsolete because we are the creators of our reality, not the ones who say this is the way it is.

Steps,

1.
Natural resource for building the home, preferably very sustainable, pay for the materials
2.
Rewilding what taken ×3
3.
Labor, if it's your home you are buying a family member or multiple family members will also be a part of the labor and anyone who wants to learn.
4.
One time payment for builder not extreme, 7,000 possibly or lower because we need to think of other ways to feel secure with not just money.
5.
Done, no rent, safety, teaching, gratitude, getting out of the system that is not working for all. Prediorty capitalism is death.
6.
When you get a house made for you you must volunteer your time to build ×3 more for future homeowners.

(My Signature 😊)

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything

you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.
