Comments

I am opposed to adding a surface mining overlay to parcels 247859000, 247858000, 247860000, and 247849000. These parcels have waterways on them that drain downhill directly into the protected East Fork of the Lewis River. Run off from a mine on these parcels would flow directly into the East Fork of the Lewis River. It would be a detriment to the river, people, homeowners, wildlife and overall character of the area to have blasting and traffic connected to a mine on these parcels. Sunset Falls Road can't support mining traffic. This area is not appropriate for mining. There should be no reason to grant a surface mining overlay for this land.
