We live where not only we will be able to see this growth but we will be impacted daily with traffic and noise from taking what used to be farm land and changing it to housing. We chose to live in this area due to it being segmented in 5 acre lots and being farm land. Our roads nor our schools are set up for such building. Please consider maintaining field and farm land for that parcel. There is PLENTY of useable land even though they are stating it is not good farm land. It could certainly be rehabilitated into good farm land or used for livestock, hay, etc.
