We need to produce things locally. Food, juice, oat milk, clothing etc. and really cut down/eliminate/recycle our plastic waste.

We need to have spaces where we can take in our glass bottles and refill our juices and oat milk and cleaning solutions rather than using plastic over and over again. For the plastic that does come in we need to recycle it. There needs to be facilities where all of what I explained done. We need research centers to also figure out the best way to do this.

(My Signature 😊)

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.

Sending healing vibes
