### Biological Strategies

We've curated more than 1700 strategies of living things that can serve as inspiration for human innovation. Whatever challenge you're looking to address, nature can serve as your model, measure, and mentor.

(My Signature 😊)

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.

Sending healing vibes

Monica Zazueta
