Good day, Roxanne,

Thank you for submitting comments in support of FOCC's proposed changes to the Climate Goals and Policies.

I have forwarded these to members of Staff and they will be entered into the Comprehensive Index of Record.

Regards,
Jeff Delapena
Program Assistant, Clark County Community Planning

FOCC change support

Comments

I agree with most of the changes proposed by FOCC. In regards to healthy forests, old growth trees and native forest diversity is key to carbon sequestration and forest resilience. Defining carbon capture practices specifically for healthy forests is key for private held lands, plantations, and maintenance of protected forests.

I recommend removing the change for additional headcount given the political atmosphere. It may cause rejection of other changes requested. This can be cost justified later.
