Hello,

During the 30 years I've lived in Clark County, I've seen more and more forest and agriculture lands (and open space) lost to development. It is those lands which used to

make Clark County a great place to live. We cannot afford to lose more.

The cities have space within their UGAs to allow for all the projected population increases and associated development. To conform to the Growth Management Act and avoid future legal battles and expenses, you should not change your original vote.

For the same reasons that led you to pass the original amendment on March 5, you should not de-designate resource lands.

Please do not change your March 5 vote; maintain Resolution 2025-04-xx AS IS without further changes.

Thank you.

Peter Fels
