Please see the below email from last week re: the DEIS resolution.

Please formalize your previous endorsement of the Comp Plan DEIS which was agreed upon by the Council on March 5th, 2025.

There is enough urban growth boundary land that can accommodate Clark County's projected growth. Furthermore, the Council's decision to ignore the Growth Management Act (GMA) would greatly complicate our available open spaces, natural resources, and protection of our environment which is critical due to ongoing climate change activity in our state.

Please support Clark County residents like me who urge you to be good stewards of our land including approximately 3,000 acres of pristine forest land.

With respect,

(Gregg)
