Subject: Re: Letter I sent to Commission Yung

I just noticed that I spelled commissioner wrong in the subject line. Could that be fixed either to Commissioner or Councilor Yung please?

~You must always be willing to truly consider evidence that contradicts your beliefs, and admit the possibility you may be wrong. Intelligence isn't knowing everything, it's the ability to challenge everything you know. Let's all give up our fear as a justification for not to take action because we are the creators of our reality.

Sending healing energy

Dear Mr. Yung,

I hope this message finds you well. I am writing to express my concerns regarding your recent comments during the Clark County Council meeting, particularly your characterization of community advocacy groups as "special interests." While it is true that many organizations, including LULAC, ACE, and OWIES, represent specific community needs, equating them with private, profit-driven entities overlooks the essential values they bring to our discussions and the systemic inequities they seek to address.

It is deeply disheartening to witness the dismissive framing of voices that advocate for the welfare of our communities, particularly those advocating for environmental justice and the preservation of our agricultural land. This perspective seems to neglect the broader implications of prioritizing immediate profits over the long-term health of our planet and its inhabitants.

The decisions made by the council have far-reaching consequences, and I urge you to reconsider the implications of your statements. The voices of those advocating for sustainable practices and equitable policies are vital to ensuring a future that is inclusive and prosperous for all community members, not just a select few.

As we navigate these critical issues, I encourage you to engage with community representatives in a manner that acknowledges their genuine commitment to the well-being of our environment and future generations. We must work together to champion policies that protect our farmland, promote sustainability, and ensure that the needs of all community members are considered in our planning processes.

Thank you for your attention to this matter. I hope that you will reflect on the importance of including diverse perspectives as we move forward in shaping our community's future.

Sincerely,

Monica Zazueta Tabor
