---

Good day, Sharon,

Thank you for submitting comments regarding the 2025 Comprehensive Plan Update.

I am forwarding to members of Community Planning Staff, and these will be entered into the Index of Record.

Best,

**Jeff Delapena**

Comprehensive Growth Mangement Plan update

**Comments**

I am urging that no Urban Growth Boundaries in Clark Co. be expanded at this time. The priority needs to be for our community to work together to build resilience to address consequences of near future climate changes.. This will benefit all of Clark Co. residents. In contrast urban sprawl will bring increased driving which will increase greenhouse gases. Urban sprawl will take away farmland we need to grow food and will decrease tree canopy which will increase greenhouse gases. Other more creative solutions can be found to address housing and increases in population. Thank-you for this opportunity to provide input. Sincerely, Sharon Sollenberger
