TESTIMONY

HEATH: Hailey, H-a-i-l-e-y, Heath, H-e-a-t-h. 3306 N.W. 209th Street. And so, I don't -- I don't have a preference on the alternatives. I am very happy to see that there is a climate section in the comprehensive plan.

And I am disappointed to see that we don't have parks represented here tonight and an understanding of how parks will be represented in the comprehensive plan. I guess that's it. Yeah. Where are the parks? They should be I think in every conversation especially as it relates to land use and the future. We need more parks, we need to restore them, conserve them, you know, build, create opportunities for land that is only park in urban natural area. That's it.
