TESTIMONY

SKRIVANEK: My name is Cindy Skrivanek, C-i-n-d-y, S-k-r-i-v-a-n-e-k. 10110 N.E. 157th Avenue, Vancouver. So, I want to complain about the amount of resources that are put towards bicycles in a state that really is only safe to ride bicycles in for about seven months a year.

The fact that they take lanes into streets for vehicles for bicycles who don't pay taxes for the roads is irritating. I'm a driver, I have a car, I pay taxes for my roads, bicycles don't and they're taking away lanes for bicycles that are really only safe to drive about seven months a year.

So, I wish that they would stop allocating so many resources to bicycles. I believe that they are an ecological, a good ecological alternative, but not in this state.
